## Fuji Xerox Print & Scan Utility (Small Office)

# iOS

### Getting Started

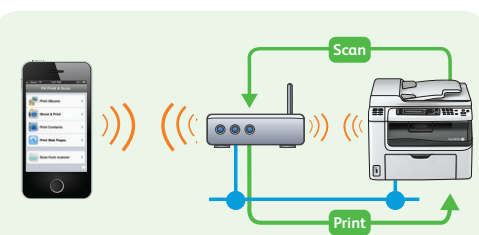

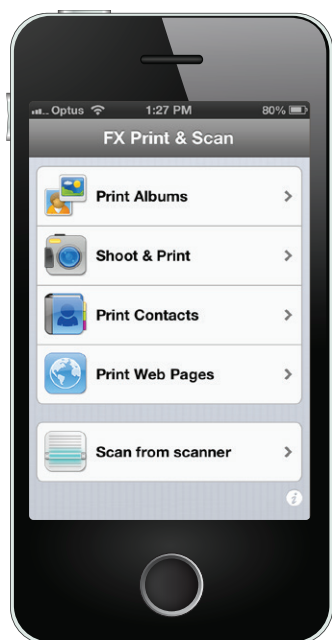

Print & Scan Utility (Small Office) for iOS can be downloaded from Apple App Store FOR FREE.

\* Any fees incurred when communicating with Apple App Store are the responsibility of the customer.

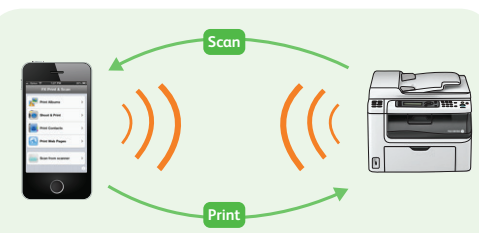

### How it works

The Fuji Xerox Print & Scan Utility (Small Office) for iOS is used to integrate your mobile and print devices in the following ways:

A. Connection via a wireless router

B. Connection established directly to a compatible wireless printer/device\*

\* Refer to Apple App Store for compatible models.

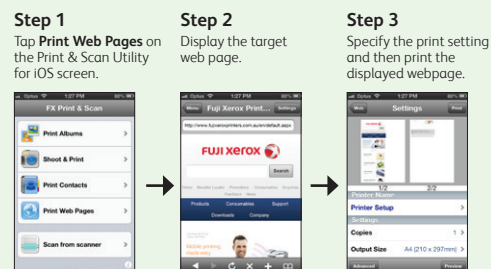

### How to Use

Installed on the iPad, iPhone and iPod touch, the Fuji Xerox Print & Scan Utility (Small Office) for iOS enables you to print web pages, contacts, and photos or scan and route paper documents to and from your iPad, iPhone and iPod touch.

#### Print Web Pages

Displayed web pages can be printed using the Print & Scan Utility (Small Office) for iOS. Use the 'Advanced' print settings tab to enable printing of multiple web pages on the one page, reducing printing costs.

#### Shoot & Print

You can print a photo immediately after taking it. By simply selecting the paper size, the photo is automatically enlarged and printed in the selected size.

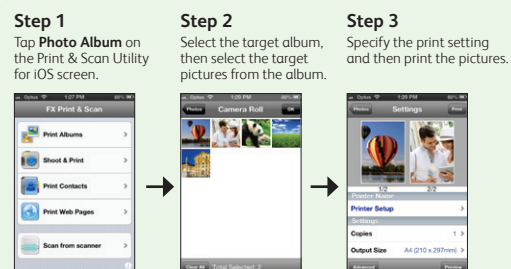

#### Print Contacts

Contact addresses saved in the address book can be printed as a list.

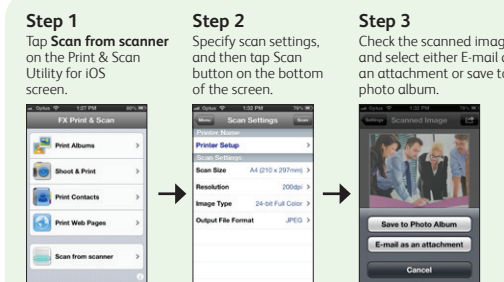

#### Print Albums

Photos saved in the Photo Album can be selected and printed. You can print multiple photos side-by-side on one sheet of paper by using the 'Advanced' print settings tab. Before printing, you can preview the print result.

#### Scan from scanner

Print & Scan Utility (Small Office) for iOS allows a multifunction printer to scan JPEG or PDF file formats and send them to the iPad, iPhone and iPod touch. Scanned JPEG documents can be E-mailed as an attachment or saved to Photo Album, while scanned PDF documents can be E-mailed as an attachment or route to a document viewer application\* such as DocuWorks Viewer Light for iPhone/iPad. It is ideally suited for mobile use, as paper documents can be easily scanned on to the iPad, iPhone and iPod touch.

\* iOS3.2 and later is required for routing to applications. \* Apple, the Apple logo, iPhone, iPod touch, and iTunes are trademarks of Apple Inc., registered in the U.S. and other countries. iPad is a trademark of Apple Inc. App Store is a service mark of Apple Inc.
