

Raise the bar.
We've reset the standards
for powerful office printing.

Our newest, high-performance printers are here.

WorkCentre® 6015
color multifunction printer
Print, copy, scan, fax and email

Phaser® 6700 color printer
The new benchmark for
workgroup color printing

Phaser 7800 color printer
The graphic arts gold standard

WorkCentre 6015 color multifunction printer

Xerox's smallest, most affordable color multifunction printer. Ideal for up to 4 users who want to share the advantages of fast color printing—through USB, Ethernet or wireless connections.

Multifunction productivity

The WorkCentre 6015 color multifunction printer (MFP) may be tiny, but it's remarkably productive. Save on energy and printing supplies by combining the functions of a copier, printer, scanner, and fax—all in one space saving device.

Superior performance

Get your projects out fast, with printing speeds of up to 12 ppm in color and 15 ppm in black-and-white.

Wireless freedom

Position your WorkCentre 6015 MFP anywhere in the office for optimum success. With standard, internal wireless networking you're good to go.

Key specifications

- Print, copy, scan, fax and email
- Color up to 12 ppm, B&W up to 15 ppm
- EA toner for more vibrant color
- Outstanding quality up to 1200 x 2400 dpi
- Automatic Document Feeder (ADF) makes short work of multiple scans
- Back-lit LCD display for ease of use
- Front USB port for quick scanned file transfers
- Supports a wide range of papers, labels and envelopes
- ENERGY STAR® qualified

Phaser 6700 color printer

Rise above the competition with a outstanding print quality, performance and reliability.

Easy on the office and the environment

The Phaser 6700 color printer combines helpful features engineered to make office life easier for a large group of users, with smart design considerations aimed at boosting your sustainability efforts.

Peace of mind comes standard

With industry-leading security technologies and unmatched reliability, you can depend on the Phaser 6700 color printer for worry-free operation day after productive day.

Key specifications

- Exceptional image quality—up to 2400 x 1200 dpi
- Blazing fast print speeds—up to 47 ppm color or black-and-white
- High-volume productivity—powerful 1.25 GHz processor
- The picture of ease—4.3 inch color touch-screen interface
- Peace of mind—industry-leading security technologies
- Energy saver—EA toner and ENERGY STAR qualified*

*DN, DT & DX configurations.

Phaser 7800 color printer

With the winning combination of consistently superior image quality and professional-level color-matching technologies, no other tabloid-size color printer gives creatives the freedom to produce more customer-facing collaterals in-house.

Incredible media handling capabilities

From customer-ready brochures and sales proposals, to posters, banners, booklets and business cards, no other device in its class prints such amazing color quality on the widest range of media weights and sizes.

Advanced touch-screen interface

The Phaser 7800 features a state-of-the-art 4.3-inch color touch-screen interface with CGI video help for quick and easy step-by-step assistance whenever you need it.

Production-ready finishing options

Choose from three finisher options. Stack, staple, hole-punch, make booklets, fold, or v-fold your projects inline, right after printing and bring common bindery operations in-house.

Key specifications

- Print shop-quality color and prints with true 1200 x 2400 dpi—in-house
- Paper size: 3.5" x 3.9" to 12.6" x 48"
- Paper weight: 5 to 350 gsm
- Color matching—PANTONE® calibrated solid-color simulations, true Adobe® PostScript 3™, PhaserMatch® 5.0 color measurement and calibration software
- High production—up to 45 ppm color and black-and-white
