

A sea of possibilities

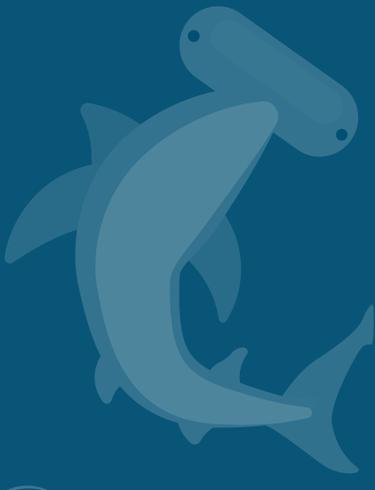

As a growing business, you have an entire sea of possibilities. But as you expand, it's easy to get trapped by unforeseen security threats that are lurking inside your network. With a security solution that will grow with your business, you'll be able to fulfill your dreams without getting dragged down by security threats.

84%

report that traditional security tools are insufficient to manage security across the cloud.¹

Security should limit threats. Not your business.

Malicious attacks are always on the rise, preying upon your business. With traditional security, you may feel protected in some areas, but vulnerable in others. And as you add additional security measures, you may still find security threats getting in your way. You depend on security to limit threats. But is it also limiting your business?

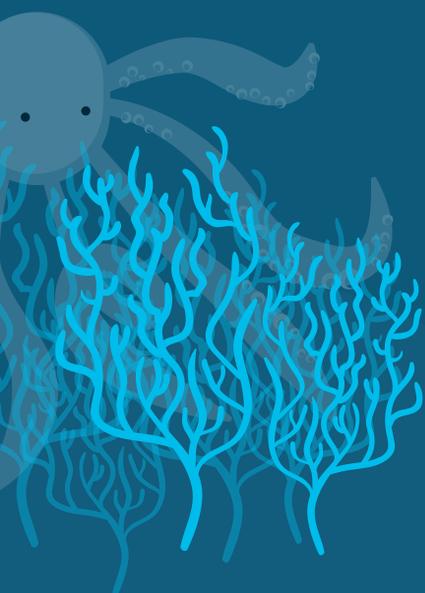

49%

report that their workforce is mobile and undefended.²

Outsmart threats before they outsmart you.

As you grow and expand your business, you become more exposed to an ocean of hidden threats. With a complete, integrated threat defense solution with easy-to-use deployment and management features, you can outsmart these threats.

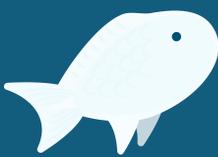

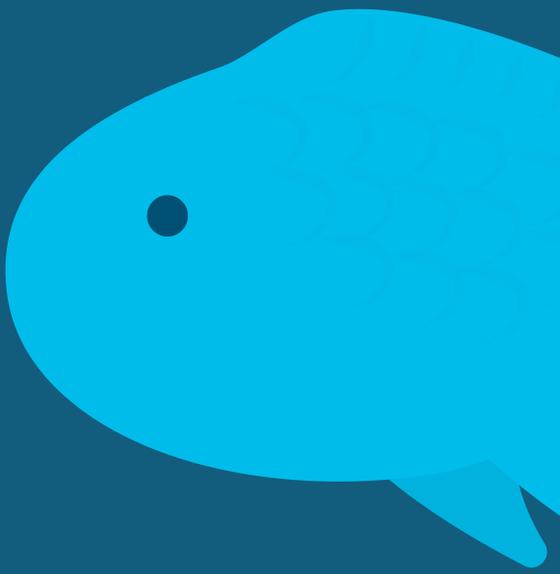

66%

of IT professionals say security is their biggest challenge with the public cloud.³

Discover Cisco for your business.

Let Cisco protect you from whatever threats swim your way. With Cisco Threat Defense Solution, you get a hybrid security architecture that grows with your business both in and out of the cloud.

82%

of CIOs expect their IT and security strategy to be tightly integrated in the next 3 years.³
