## ECOSYSTEM

Our business model mirrors the highly interconnected world we live in where ideas and information can be shared worldwide in seconds. It allows our customers to enjoy the highest levels of technology innovation while remaining aligned with real-world business requirements. Traditional, proprietary software development models cannot match this efficient, rapid, customer-focused method.

### COMMUNITIES

Red Hat connects the communities that create open source software to the enterpriser that use it.

### PARTNERS

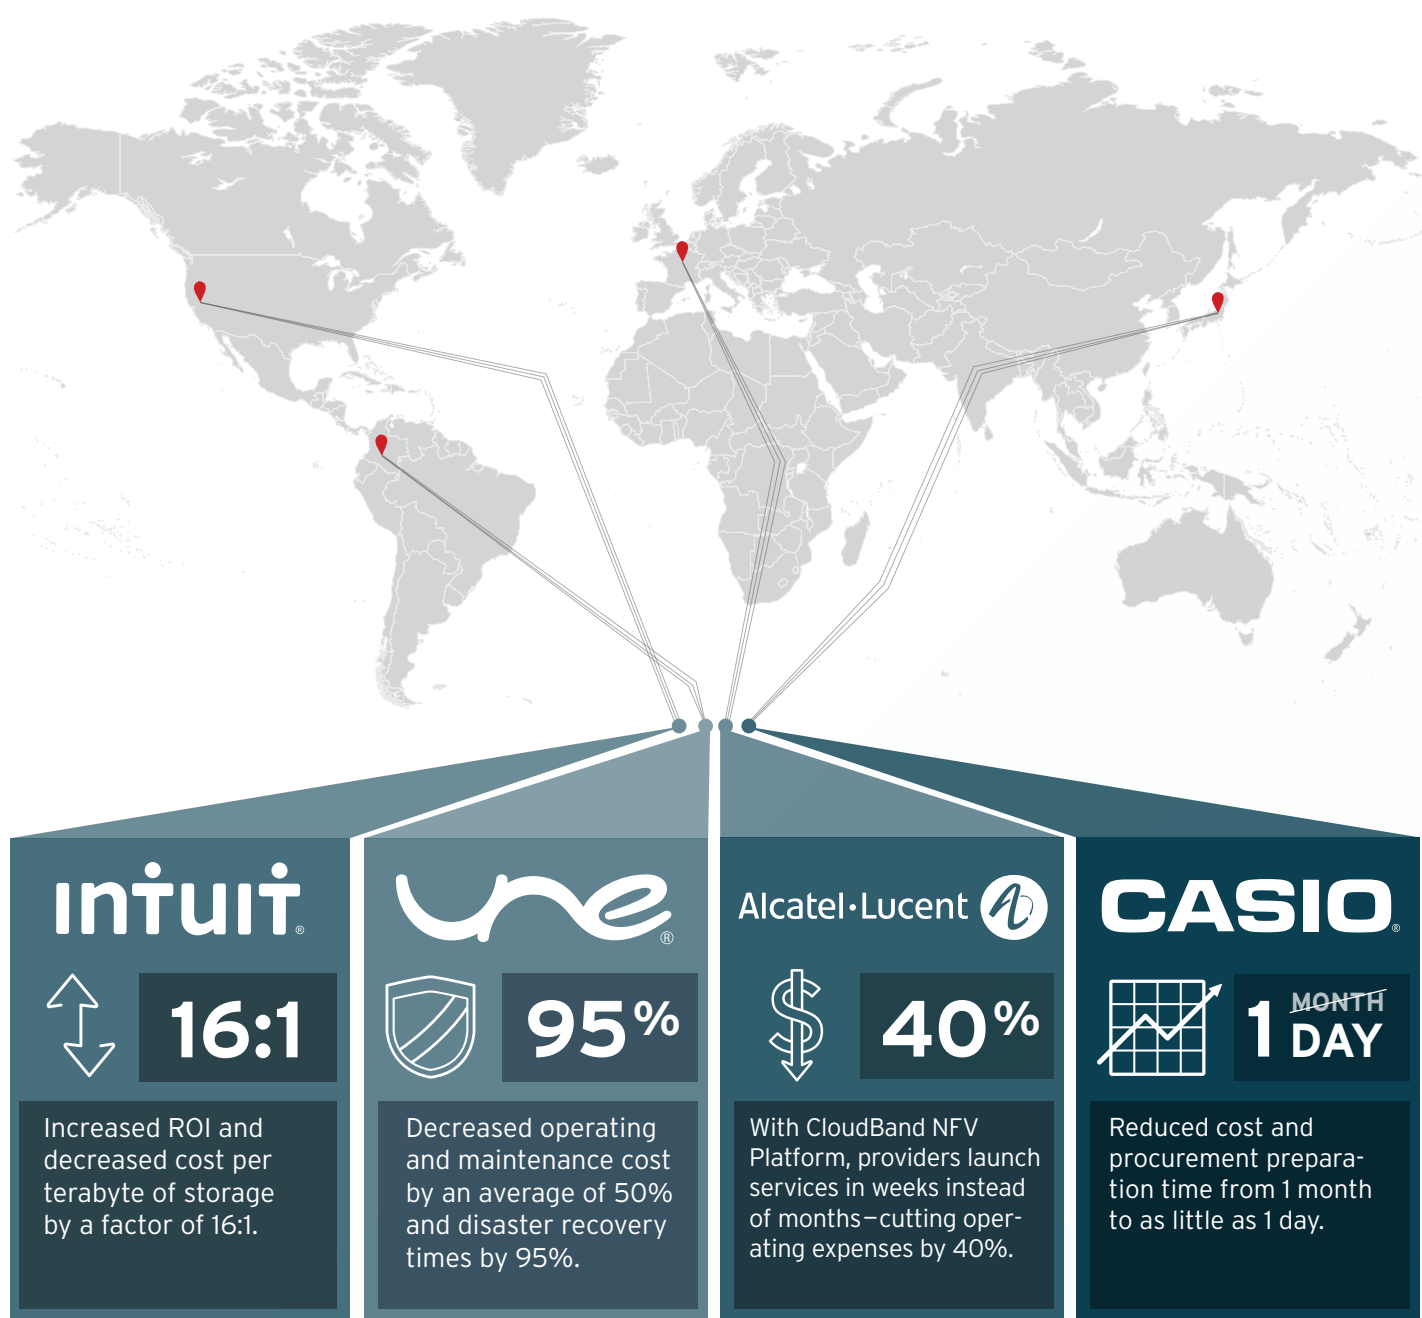

Global partners work with us to ensure our solutions work together, at scale, in a variety of environments.

### CUSTOMERS

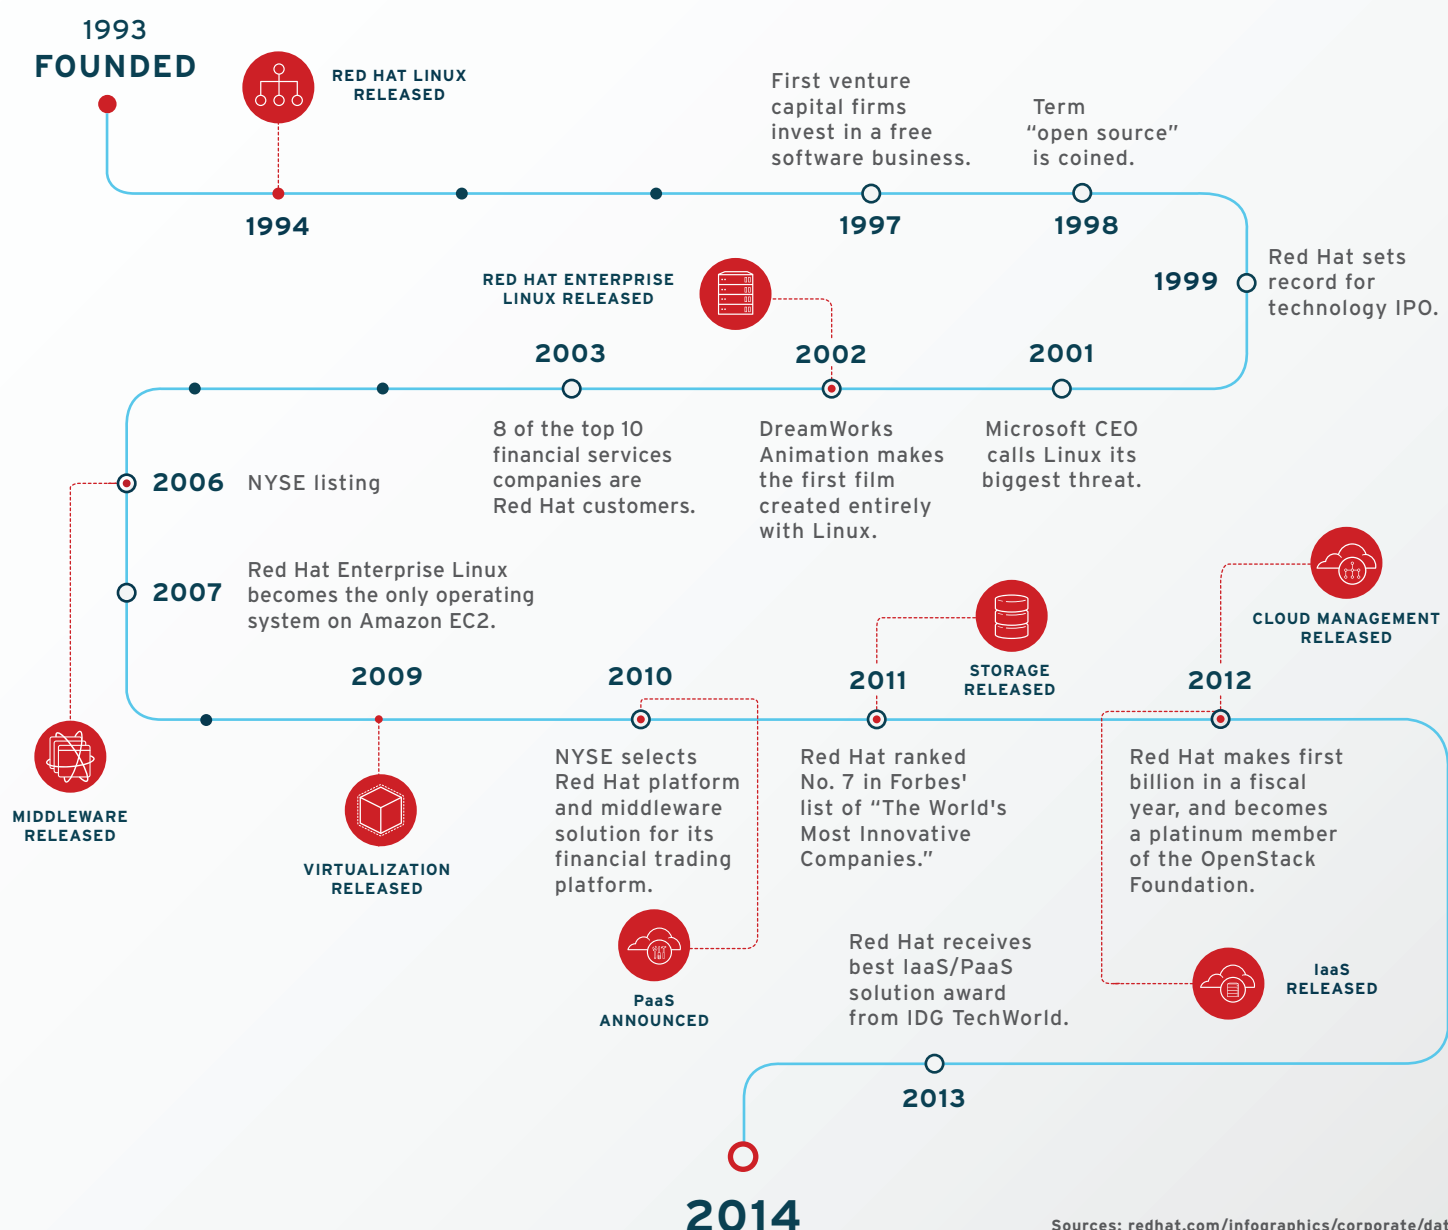

Red Hat success is based on the success of our customers. Great ideas stand on the shoulders of good ideas.

## WHERE WE'VE BEEN

More than 2 decades ago, Red Hat had a vision for developing better software. Since then, we've worked with an ecosystem of IT leaders, open source advocates, developers, and partners to create the perfect foundation for the future of IT. But that was just the beginning.
