

KEY BENEFITS

ACCESSIBLE FROM ANYWHERE

Access 100% of your financial information from anywhere using any popular web browser.

ACCELERATE DECISION-MAKING

Improve decisions by using drill down reports and dashboards to gain access to past information and provide insights into future needs.

FASTER DATA ENTRY, FEWER ERRORS

Enter data quickly and reduce errors in the General Ledger using the journal voucher screen, which allows entry of multiple submodules documents at the same time.

IMPROVE YOUR ANALYSIS

Acumatica's standard financial reports provide year over year comparison and budget versus actuals.

WORK LOCALLY AND INTERNATIONALLY

Prepare financial statements in both your local currency and a foreign currency for reporting purposes.

FINANCIAL MANAGEMENT

A powerful set of financial applications used by almost every organization, no matter how complex or simple requirements are. Brings rigor to business processes in a user-friendly way.

The Acumatica Financial Management Suite includes a core set of applications designed for companies with complex requirements, yet are easy to use in smaller organizations. The modules are integrated with each other and also with the other Acumatica suites.

FINANCIAL MANAGEMENT MODULES

General Ledger	Central repository for collecting and analyzing your financial information.
Cash Management	Manage day-to-day operations related to cash transactions, cash balances, funds transfer, and bank account reconciliation.
Accounts Receivable	Manage receivables and automate the tasks of invoicing customers and collecting payments.
Accounts Payable	Manage liabilities for purchased or received goods and services.
Employee Portal	Automate the process of entering timesheets, submitted expense claims, and assigning work.
Currency Management	Supports multiple currencies so you can do business internationally and manage international subsidiaries.
Tax Management	Provides centralized tax configuration, management, and reporting.
Deferred Revenue Management	Automate and accurately account for situations where you need to recognize revenue in future periods.
Fixed Assets Management	Provides complete visibility into your assets and depreciation calculations.
Inter-Company Accounting	Automates financial reporting, payments, cash management, and inter-entity transfers for organizations with multiple business entities.

ENHANCED FINANCIAL CAPABILITIES WITH 4.1 RELEASE

Improved budgeting	Maintain separate budgets for individual branches and easily control permissions for each. Branch information is now part of the budget process, resulting in better reporting and easier budget creation. A built-in configuration wizard speeds up budgeting.
Preliminary AP booking	You can now choose to book transactions to AP and tax accounts prior to verification of the expense account. Once an accountant is available to properly code the expense, the system allows the expense account to be reclassified.
Enhanced GL voucher entry	Apply sub-module documents from the Journal Voucher screen.
Track fees and payment charges	AP payments and AR cash receipts now provide the ability to quickly and easily enter any type of fees including credit card, currency or bank associated with the cash transaction at the time of entry.
Advanced contract management	Easily configure customer contracts with setup, renewal and/or recurring fees. The ability to use standard or customer pricing allows flexibility.
