Shredders

Protect confidential  
information and avoid  
costly shredding services.

## SH Series shredders cut sensitive documents into tiny pieces to keep your information safe.

Designed for the home or office, the SH Series Shredders offer automatic start-and-stop shredding with Easy-Switch control. Its SPS (Safety protection systems) is an electronically controlled safety flap that detects items in the feed opening and automatically shuts off in case of emergencies.

# Shred private materials with our professional line of quiet, quick, and reliable shredders.

## **SH0B Light Duty Shredder**

Features efficient light duty cross-cutting shredding while saving space in your home or small office setting.

## **SH1B Office Shredder**

Do more with Easy-Switch control, Safety Protection System automatic start and stop shredding that shreds up to 18 pages at a time.

## **SH2B High Volume Shredder**

Shred more with a high volume shredder and increase security with even smaller shred widths – as small as 2mm x 15mm.

## **SH3B Office Shredder**

With all of the features of the SH2B plus a feed opening of up to 12.2 inches for more shredding power. Plus, it includes a large 265-pound shred bin volume for your convenience.

## **SH4B High Security Shredder**

Finely cut personal information in tiny particles for the highest-level security. This is our fastest and largest shredder with an automatic oil injection on the cutting shaft keeping the shafts consistently moving.

# Features

## Easy-Switch

Enables ease of operation. The intelligent multifunction switch element with integrated optical signals indicates the operational status. Includes an additional "emergency switch" function.

## Patented safety flap

The electronically controlled safety flap in the feed opening to keep fingers, ties or other objects away from the cutting shafts to maximize safety.

## Convenient shred bin

The environmentally-friendly shred bin can be removed easily and cleanly from the cabinet. The bin can be used with or without the disposable shred bag.

## ECC (Electronic capacity control)

To avoid paper jams, this electronic feature indicates the used sheet capacity during shredding process.

## Electronic oil injection

The automatic oil injection system lubricates the cutting shafts when shredding to guarantee a constantly high shred performance\*.

\*Offered with SH4B High Security Shredder only.
