

Let's Flip 50% OFF

Buy up to two Samsung Flips and stands for 50% off.
Act Now | Limited Quantities Available*

The cost of doing better business has been flipped.

Discover a portable, interactive UHD digital flip chart that drives more productive and efficient collaboration without the hassle of complicated set-ups.

Now with new and improved functionality based on your feedback!

- 
Designed for Simplicity
 The Flip's portable design makes any space a meeting room. Embedded sensors activate the Flip automatically. Landscape and portrait modes maximize writing space, while brilliant 4K UHD picture quality and Natural InGlass™ interactive touch offer an engaging experience. And Samsung Knox protects company data from the moment the Flip is powered on.
- 
Meetings Start on Time
 Skip the lengthy boot-up. Embedded sensors activate Flip as you approach, remove the pen from the holder or rotate the display.
- 
Seamless Collaboration
 You can capture, annotate and share seamlessly with wireless or wired connectivity. You can also connect, view and manage the Samsung Flip from a mobile device. And up to four people can write simultaneously, enhancing collaboration further.
- 
Share on the Big Screen For Everyone To See
 You can wirelessly mirror everything you're doing on the Flip to another screen in the room. Everyone can have a front-row view.
- 
Write and Draw
 Premium Multi-Touch Collaboration makes writing smooth and fast, with a pen-and-paper feel. And meeting participants can use virtually any writing tool, such as the blunt end of a pen.
- 
Document Viewer**
 Open Microsoft PowerPoint, Word and Adobe PDFs directly on the Flip and annotate on them.
- 
Save and Instantly Share Meeting Notes
 All your notes are automatically saved as you work, so you don't have to wait to save each page. And after the meeting, it's easy to instantly share those notes via email in PDF format (now with LDAP support), network, printer or by saving them to a USB drive.
- 
Safe and Secure
 Secure meeting notes and keep them confidential by locking the display or specific note with a unique PIN. You can even set the Flip to automatically delete files after a specified period of time. Additionally the Flip supports Enterprise WPA2 for secure wireless connectivity.
- 
Easy to Set Up, Easy to Learn and Easy to Train
 It takes minutes to set up, and the Samsung Flip's tablet-style user experience is intuitive—just tap, scroll and navigate, seamlessly.

*Valid July 15th through September 30th, 2018. Contact your Reseller for details.

**This feature will be available with a no cost firmware upgrade August 2018.
